

INSPECTION DOORS

Access Door For Belt Cleaner Inspections & Blade Change Outs

Chute Inspection and Access Doors are a necessary part of any transfer point to allow for safe inspection and access to maintain the belt cleaner systems.

- **Safety** - inspection screen guard standard on every door for the ability to safely inspect equipment while it is running.
- **Redesigned Frame** - has a 45 degree flange to shed fines from accumulating on the interior of the door.
- **Low Profile Steel Construction** - with a dual EPDM rubber dust seal that can withstand temperatures from 4 degrees C to 94 degrees C.
- **Available in 3 standard sizes:** 300 x 450 and 450 x 600
- **Belted** - hinged inspection screen

Add an Inspection Door to your existing head chute for safe access to cleaners and chute clean-out.

Inspection Door Part Numbers
